

THE AMERICAN BOARD OF SURGERY

Dear leadership of the Society of American Gastrointestinal and
Endoscopic Surgeons:

The ABS is pleased to announce that we are now able to share with our
partner societies knowledge gaps reports related to our various Continuous
Certification Assessments (CCA).

The purpose of these reports is to provide a summary of specialty-specific
knowledge gaps identified through diplomate performance on the CCA.
The figures include data on first-attempt exam performance over the last
three years, including average percent correct values, keywords, and
references for items with lower diplomate performance.

We are sharing this information with you to give your organization the
opportunity to use the reports as a tool that may be helpful in planning
member-facing educational activities to support learning in the areas with
knowledge gaps.

Please use the button below to access the 2024 Continuous Certification
Knowledge Gaps Reports.

Access the Reports

If you have any questions about the information contained in the reports,
please [contact](#) ABS Director of Psychometrics Dr. Carol Barry.

Thank you.
