SAGES 2026 NBT Innovation Weekend **Sponsorship Opportunities**

We look forward to welcoming you to SAGES 7th Annual NBT Innovation Weekend, February 19-21, 2026, at The Woodlands in Houston, TX. This year's NBT Innovation Weekend will once again include the Surgical Disruptive Technology Summit (SDTS) and the International NOSCART Summit.

The SAGES NBT Innovation Weekend is designed to be a place where industry, engineers, and providers can have open dialogue about innovation and is structured to allow all participants to engage in the discussion. Industry supporters are encouraged to voice their opinions right next to surgeons, engineers, and physicians. Following the success of previous SAGES NBT Innovation Weekends, there will once again be two receptions with exhibitors on Thursday and Friday evening. These receptions provide unopposed time for exhibitors and attendees to network and continue the conversations from the days' sessions, explore topics presented, and discover technologies at the exhibit booths of our sponsors. These receptions provide exhibitors with the opportunity to network with attendees of both the SDTS and NOSCART meetings.

This event is a non-CME activity giving all attendees an opportunity to speak openly about the latest innovations, controversies, and challenges. We invite you to participate in and support this exciting event.

Agendas to be provided separately.
